These lots are within ten minutes walk of the Harbor, the Beloit, Lake Shore and the Milwaukee & Mississippi Depots, about the same distance from Walker's Point bridge as Chestnut and Division streets on the north.

ANNOUNCEMENT.
IN consequence of ill-health, I have felt it my duty under the advice of my physician, to give up business entirely. I have sold out my stock of Books, Stationery, &c., to Henry Kempshall, who has been with me during the past year, and for the four previous years with Messrs. D. Appleton & Co., of New York.

THE SUBSCRIBER has completed the survey and plat of his subdivision in the Eighth Ward, and now offers them for sale. These lots are within ten minutes walk of the Harbor, the Beloit, Lake Shore and the Milwaukee & Mississippi Depots, about the same distance from Walker's Point bridge as Chestnut and Division streets on the north.

These lots are situated upon a level plateau commanding a beautiful view of the City, Bay and surrounding country. VOLUME XIV. MILWAUKEE DAILY SENTINEL, FRIDAY MORNING, MAY 15, 1857. NEW SERIES.

THE DAILY SENTINEL.

RUFUS KING & WM. H. WATSON,
PROPRIETORS.
Under the Name and Firm of Rufus King & Co.

MILWAUKEE:

Friday Morning, May 15.

Milwaukee & Mississippi R. R.

We received last evening, from Mr. JERVIS, Superintendent of this Railroad, the following despatch, dated at Madison;

Ed's Sentinel:—The water in the Wisconsin river is falling. *All the bridges are safe*, and a large force engaged in repairing the track.

WM. JERVIS.

The bridges have done nobly in withstanding the onset of "Old Wisconse," and the track, for a new and unsettled one, has done as well as could be expected. We hope to announce the resumption of through trains shortly.

Official Returns on Chief Justice.

The Madison *Journal* publishes a table, giving the official returns of the election for Chief Justice as far as they are on file at the Capitol. Adding the full vote of Winnebago Co., (of which the table gives the majority,) the total is as follows:

	Whiton.	Cothren.
	46,746	34,939

In addition, we have the following Counties, not in the *Journal* table:

Jackson,	269	167
Door,	104	7
Oconto,	117m	—
	47,236	35,113

Whiton's majority, 12,123.

There are still the counties of Clark, Dunn, Kewaunee, La Crosse, Marathon, Pierce, Polk, Shawano to be heard from, which will doubtless add 1000 to Judge Whiton's majority.

The City Printing.

We take the following extract from the "official" proceedings of the Common Council, as published in yesterday's *News*:

The City Attorney, who was requested by resolution of the Common Council, of the 27th of April to give his opinion "whether Messrs Greulich & Co., can be legally City Printers," presented and read his opinion "that there is no legal objection to Messrs. Greulich & Co., being elected and performing the duties of City Printer."

Which was concurred by the following vote:

AYES—Ald. Baast, Bussach, Conrad, Faulkner, Humphrey, Humann, Jennings, Johnson, Leffler, McCormick, Seaman and Wergen—12.

NOES—Ald. Cotzhausen, Doornink, Greve, Heinemann, Hayden, Hoene, Kuehn, Plankinton, Prentiss, Taylor and Walter—11.

Ald. GREULICH is accordingly confirmed by *one* majority in the office of City Printer, to which he was elected by *one* majority. There can be no question that this is in violation, alike, of the spirit and letter of the City charter.—That instrument (chap. III, sec. 12) reads as follows:

> No Alderman shall be a party to, or interested *in any job, or contract* with the city, or any of the Wards, and any contract in which any Alderman may be so interested shall be *null and void*; and in case any money shall have been paid on any such contract, the Common Council may sue for and recover the amount so paid, from the parties to such contract, and the Alderman interested in the same.

Ald. GREULICH is the proprietor of the *See Bote*, which was designated by *his* vote as one of the "City Papers." He thus obtained "the job, or contract" to do all the City Printing in German. The Charter expressly forbids any Alderman being interested in such "job, or contract." Nevertheless Ald. GREULICH holds on to this "fat take"; and the City Attorney, to whom the subject is referred, works up an elaborate opinion to prove that it is no violation of the Charter for an Alderman to be "a party to, or interested in" the job of City Printing. Evidently the City Attorney appreciates Alderman Greulich's effort to raise his salary to $2,500; and the Common Council should no longer hesitate to pay the price asked for such valuable legal advice.

ANOTHER "NEWS" ITEM.—The *News*, which has just been forced to swallow one falsehood in regard to the *Sentinel*, to wit: that we had advocated a Registry Law for this city and county, betakes itself, in revenge, to another. It now charges that the Editor of the *Sentinel* "showed "symptoms of it (Know-Nothingism) during the "reign of Native Americanism, and while he was "editing the *Advertiser*, at Albany, N. Y."—This, like the Registry Law story, is an entire fabrication. The Editor of the *Sentinel*, during a twenty-one years' connection with the press, has steadfastly opposed Know-Nothingism, or Native Americanism, at all times and in whatever guise, or quarter it appeared.

THE REGISTRY LAW.—The *American* chuckles over the mistake we made in saying that the *Sentinel* advocated a registry law for this city. It is of little consequence whether the *Sentinel* did or not, as the *American* certainly did, and they have always been in the same interest and are still.—*News* of yesterday.

This is the poor apology of the *News* for a wilful and deliberate fabrication. According to the remarkable logic of that paper, since it and the *American* are now "in the same interest," to wit: "Border Ruffian" and Pro-Slavery, the fact that the *American* once "advocated a registry law for this city" implicates its yoke-fellow of the *News*, not only in that, but in all others of its Know Nothing heresies.

GERRIT SMITH COMING TO MILWAUKEE.—The Hon. GERRIT SMITH, of Petersboro', New York, writes to the *Free Democrat* that he will attend the mass convention of the opponents of Slavery, proposed to be held in this city on the 17th day of June next. Mr. SMITH is not only one of the purest philanthropists, but one of the most eloquent orators of the age.

The Ice in Lake Superior.

The ice in Lake Superior is reported as being still solid. The Cleveland *Plaindealer* of the 11th, learns that the ice between Ontonagon and Superior City two weeks ago, was two feet and a half thick. At Marquette, on the 23d ult. the ice was quite firm, and the snow in the woods at least four feet deep.

AMERICAN SKILL.—The governments of the three colonies in Australia have commenced the construction of nearly 1,000 miles of magnetic telegraph, to be completed in nine months from this time, and have selected Mr. S. W. MCGOWAN, formerly in charge of the office of the New York, Albany and Buffalo Telegraph, in New York city, as superintendent of the construction of the lines, which are to be worked under MORSE's patent. The instruments, batteries, materials, &c., have been ordered, through English and Australian firms, of Messrs. CHARLES S. & M. CHESTER, of New York city, and are to be of the most finished and perfect construction.

SEWING MACHINES.—There is one Examiner in the Patent Office whose whole attention is given to Sewing Machines, for which no less than two hundred patents have already been issued, and new ones are constantly applied for.

A FINE HORSE COMING TO MILWAUKEE.—The Neenah and Menasha *Conservator*, of May 12th says:

> We had a call, a day or two since from the beautiful "*King of Cymry*" and his groom, preparatory to his departure for Milwaukee. He is in a fair condition, though not as fat as formerly, and never looked better. He is every inch "a blood" and will meet the expectations of the Milwaukee horsemen. An effort has been made to induce his remaining here, and at least $2500 could be secured for his services here this season, but the engagement to go to Milwaukee, could not be broken, and he left on Tuesday last.

DISTANCE TO TOLEDO SHORTENED.—We learn from the Goshen, Indiana, *Democrat*, that the Air Line, belonging to the Southern Michigan and Northern Indiana Railroad Company, was completed last week, and that the through trains between Chicago and Toledo will commence running over it next week. This line shortens the distance between the two places.—*Chicago Press.*

Chicago and her Rail Roads.

The progress of Chicago is a marked feature of the times. Her energy and enterprise grasp at all the avenues of trade, and compel them to become tributaries to her Warehouses, to her Harbor and her commerce. Not content with the business of her own State, she is stretching her iron arms up into Wisconsin, and *through* Wisconsin to the Upper Mississippi and Lake Superior; penetrating to the vast Iron Mines, Copper Mines and lumber regions of the North, and preparing to draw their rich products to her market, while she supplies them with her Merchandize and Coal.

The Chicago *Democratic Press*, thus speaks of the progress of the "Chicago, Saint Paul and Fond du Lac Railroad:"

"The officers of the Chicago, St. Paul and Fond du Lac Rail Road Company have, within a few days, let the contracts for the construction of fifty-seven miles of their road, to be completed during the present year. This comprises that portion of the line which is located through the valley of Rock River, and extends north from Janesville (to which place, ninety-two miles from Chicago, the Southern Division of the road was put in operation last summer,) to the junction of the La Crosse and Milwaukee Railroad, from which point the Northern Division is in operation for forty miles, to Fond du Lac on Lake Winnebago. The completion of this link will open direct to Chicago for the trade and travel of the Rock River valley, the Garden of Wisconsin, hitherto almost destitute of Railroad facilities. But it will be still more important as affording railroad communication, (direct and independent of diverse interests) with Fond du Lac, Oshkosh, Menasha, Appleton, and the extensive prairies and valuable water powers of Northern Wisconsin. The whole Rock River valley, even in Illinois, will ultimately be supplied with lumber over this road, from Wolf River pineries, while the coal and produce of Illinois will thus find a market at the north.

The construction of the road northward from Fond du Lac is progressing rapidly, and before another winter, the cars will run direct from Chicago to Oshkosh, a distance of 185 miles, passing through Janesville, Watertown and Fond du Lac, three of the most important cities of the interior of Wisconsin, possessing unitedly, a population exceeding 30,000.

The extension of the road northward to Lake Superior, on the means provided by the recent land grant to this Company, is determined upon, and its speedy completion is certain to give increased strength and prosperity to the Company."

Again, the Chicago *Tribune* discourses, thus confidently, in regard to the "Air Line road" to Saint Paul:"

"The shortest and best route for a railroad tween Chicago and Saint Paul that can possibly be built, is by way of Janesville, and Madison to La Crosse; thence up the Mississippi river, to St. Paul. A glance at a good map will show that this route is an *air line*, the whole distance, and consequently there can never be a shorter route. Over such a road, when made, would pour a very large portion of the travel of the whole territory, going east. That such a road will soon be built is a certainty. It is completed from this city to Madison already, and in a short time will penetrate to La Crosse. The people of Minnesota are taking steps to build their portion of the road from Saint Paul down the Mississippi Valley to La Crosse. Milwaukee has been flattering herself that she would seize and control the rich trade of Minnesota, but that ambition cannot be gratified."

The Madison *Argus*, (though published at the Capital of Wisconsin!) warms up in view of the onward march of the "Western Venice," and exclaims:

"The citizens of Chicago are taking a correct view of the importance of Wisconsin Railroads to them. It is undoubtedly true, that the straightest and best route from that city to St. Paul, is by way of Madison, and we hope soon to see the direct route from this city to La Crosse under construction. Chicago has been very successful in obtaining a controlling interest in Wisconsin roads. She not only controls *five* of the *seven* roads running in this State, but they are constructed on *straight* lines pointing directly to that place.—She has also interested almost every city and village in the State, and obtained their aid, Watertown, Janesville, Beloit, Geneva, Elkhorn, Mineral Point, Whitewater, Jefferson, Fort Atkinson, Columbus, Fond du Lac, Oshkosh and Appleton, in fact, all the important interior cities and villages, except Madison, have loaned their credit in aid of these enterprises. But Chicago does not stop here, she is determined to make the whole North-West, from southern Iowa to northern Minnesota, tributary to her, and her past success is a sure guarantee that she will. Well may her citizens be called 'suckers.'"

Well, citizens of Milwaukee, are not these TRUTHS? Can you deny that Chicago is weaving a net-work of Railroads, that is to draw to her, all the business of all the north-west?—Nothing but a corresponding energy on your part, will avert it. Capital, once located, almost always remains. Trade, once lured to a market place, is hard to be tolled away.

Now is the time for Milwaukee to stretch out *her* arms and grasp the trade of the interior, or, within a few years, it will be *too late*. If Chicago "controls *five* of the seven roads, running into this State," why shall not Milwaukee control as many roads running into Illinois? Neither southern Wisconsin nor northern Illinois, nor any of the country lying west of them, has any interest in seeking a Chicago market, except that *the way is opened* and the *facilities provided*.—This city has a better harbor, is nearer to Buffalo, is nearer to the Mississippi river, and offers better prices and cheaper storage than her rival in Illinois. The voice of the country is calling to Milwaukee to open her avenues for their produce; and the people of the country have done their part towards helping themselves in their market. The country subscriptions to the Southern Wisconsin Railroad, and to the Milwaukee and Beloit Railroad, have been large and liberal. Yet, how much have business men and property holders of Milwaukee done, to aid these two great thoroughfares, which as soon as completed can and must command the best business of both northern Wisconsin and southern Illinois—a country more rich, populous and fertile, than any in the whole north-west. These roads ought to be pushed through. Their completion will do more to save and to establish the prosperity of this city, than any other road now projected.—They will not only do a large and paying business, but they will secure—while it may be secured—and lead to us forever, a vast trade, which we otherwise must lose.

There is one question soon to be settled—whether Wisconsin becomes "a hewer of wood and a drawer of water" for a neighboring State, or whether her own people will furnish a market for her own produce, and will also take their share from south of the State line!

Wisconsin run Wild!

The Wisconsin river has been higher at this place for the last few days than it has been for the last fourteen years; and some old settlers say, higher than they have ever known it before. The way it rears and pitches, boils and tumbles, whirls and foams through the Dells, is a caution to raftsmen to keep out of them; and consequently none have ventured in during the highest water.

There must be a mighty fleet of rafts collecting at the head of the Dells, and it will be an exciting scene to stand on Dell Bridge and witness their passage, when the water begins to fall so that they dare run. Several have already been partly stove up there this spring; and probably several more will be before they get through.—"Old Wisconse" tosses them about and plunges them under, as if lumber and life were of little consequence to him. By the way, the fellow who said he rode through upon a bunch of shingles told the truth. The forward cribs of the raft doubled under, and this man, with twenty-five or thirty bunches of shingles, was thrown into the water. He caught a bunch of shingles and was tumbled safely through the rest of the Dells, and nearly a half a mile below, where he was rescued by some men in a skiff! It was a remarkable escape. One life was lost in the Dells last year; but we hope no such accident will happen this year.—*Wisconsin Mirror.*

THE WEATHER—THE CROPS.—The most of the time for three weeks, we have had beautiful spring weather. Some of the time it has been quite warm, and grass and other vegetation have started, so that cattle live well out. Farmers have all been busy putting in their spring crops; and the indications thus far are favorable for good crops. Winter wheat looks well, and, though late, there is still time for a good crop of spring wheat. Farmers should improve this pleasant weather; for on it depend their future profits. And they should put in all the grain they can, and tend it well, especially corn: for it will all be needed next winter. There will probably be a large accession to the population of this season; and their stomachs must be filled.—*Wisconsin Mirror, (Kilbourn City) May 12.*

LETTERS FROM KANSAS—NO. 1.

LEAVENWORTH, May 3d, 1857.

MESSRS. EDITORS:—The "merry month of May" has come at last, and to us brought a cessation of old Boreas's piping, warm rains and pleasant sunshine. Vegetation can be quoted as looking upward, and pleasant is it to all who own four-footed beasts, to reflect that a week longer will relieve them from the necessity of either paying two dollars per bushel for corn, or letting their cattle starve. What little stock of provisions and fodder the interior possessed, has been swept away by the crowds of emigrants who have swarmed in, and now we must depend upon supplies from other States, until a sufficiency can be produced from our own soil.

Of course the readers of this have heard of Lecompton, the place where the business of the Bogus Legislature is transacted, dignified by the title of the Capitol of the Territory. The main road from Lawrence to Topeka passes within three miles of the place, but shuns it, as does every man who is not compelled to go there on business or impelled by motives of curiosity. Moved by the latter, I took my seat in a hack on one of those pleasant days before mentioned, determined to see the Lecompton elephant. The road was in excellent condition, as are most of the roads in Kansas, and the horses had more "go" in them than their looks indicated, so the distance was quickly and pleasantly traveled, and we were close upon the city ere anything denoting such a place could be discovered.—Being located in a valley fronting the river and surrounded on three sides by hills, it cannot be seen until one is close upon it. "Billy," the driver, was an Irishman, and like all of his nation who handle "the ribbons," fond of making his *entree* in style. So we jolted over the stones and stumps at a gallop, and brought up finely at the hotel with no other mishap than splitting to pieces the end-board of a wagon with the pole of the hack. A fifteen-by-twenty room redolent with the fumes of tobacco and liquor, contained the office, bar and sitting room of the "Brooks House." I followed the injunction of a yellow placard to "Register Names," and gladly made my exit to the open air, when I proceeded, in company with a gentleman from Virginia, to take an observation. There were few stores, but plenty of saloons, &c., in front of which the usual "signs" of such places were exhibited in various attitudes, but nothing to indicate that business was done.

A foundation was laid some time since for a Capitol building, but no workmen were now employed upon it. Probably the "powers that be" were patiently waiting until taxes could be collected from the Free State men; if so, the building will, in all human probability, never be completed. A long two-story frame building is at present used for a Legislative Hall. None of the signs of active growth manifest in other Kansas River towns could be seen here; with the exception of a hotel, no building was going on. A gaunt pony fastened to a post in front of the Crystal Fountain;" and the ox team hitched to their split-end-board wagon, were all in the quadrupedal line to be seen in the street. The state of morals can be easily imagined from the fact that although the place has been settled for nearly two years, a Sabbath School has not been held until within a couple of weeks. A remark of a resident which I overheard, as forcibly illustrates the condition of business: "There's a hundred barrels of whisky in town, and nary sack of flour!"

Conspicuous among the notables of the place was DENNEY, U. S. Marshal, a tall well formed man, with a countenance indicating considerable energy of character. He was standing upon the steps of the Hotel, patiently listening to a drunken old man who was soliciting an appointment, and urging his services in the pro-slavery cause as reasons therefor. The word Abolitionist was mentioned, upon which the solicitor proved himself "right on the Goose" by the following *en-lightened* oath: "D—n an Abolitionist? D—n a man who would not get up at midnight and set his shirt tail a-fire to see to G—d d—n them by!"

I have no doubt the old man received his appointment as deputy—such talents will not be ignored by the pro-slavery party.

The Marshal was then introduced to a Major, and a Colonel, and having exhausted the military present, the master of ceremonies brought up a representative of a profession quite as deadly. "Marshal Denny, allow me to introduce to you Dr. So and So," then aside, to the company in general, "The Abolitionists will have to step around d—d lively now."

Of course after so many introductions, there must be drinking, and I noticed that the Marshal took "four fingers" of "brandy straight" without wincing. Of the table and lodgings of the hotel I forbear notice. Both were extremely dirty, and the former scantily supplied with everything except darky waiters. I could not help thinking as I saw the Marshal's rueful look at his dirty corn bread and fat bacon, that his soul yearned for the "flesh pots of Egypt," and that the honor of a residence at the capitol of Kansas, together with the dignity of office, did not compensate for the hard fare.

I left Lecompton gladly, much pleased that it was the only place in the Territory where proslavery men were in a majority. Large portions of Atchison, Tecumseh and Doniphan have been purchased by companies of Free State men, and the '*Squatter Sovereign*' will be issued next week as a REPUBLICAN paper. So mote it be! S.

Board of School Commissioners—Special Meeting.

MILWAUKEE, May 13th, 1857, 7½ o'clock, P. M.

Present, Messrs. Bade, Brown, Chapman, Church, Daggett, De Vos, Elmore, Hayden, Horan, O'Neill, Reed, Schwarting, Selby, Seger and Taylor.—15.

Absent, Messrs. Bade, Burnham, Culligan, Hadley, Kuehn, Larkin, Lippert, Mallory, Mitchell, Miller, Noll and Shortell.—12.

The reading of minutes of the last meeting was dispensed with.

Sundry accounts were presented, reported correct by the Executive Committee, and allowed.

Mr. Bade offered the following:

Resolved, That hereafter any bill presented to this Board shall be certified and sworn to, as to its correctness, and also that it has not been paid before, with the exception that if any Commissioner shall order anything for the use of the Public Schools, his certificate shall be sufficient.

Which was lost.

Mr. De Vos offered the following:

Resolved, That the Executive Committee is hereby empowered to employ a Male Teacher for the Ninth Ward School, on the Fond du Lac street, for this year's term.

Which was, on motion of Mr. Seger, referred to the Executive Committee.

Mr. Chapman presented a petition from Thos. Spence and others, residents of the First Ward, asking permission to use a room in the First Ward School House for an evening class.

Which was also referred to the Executive Committee.

Mr. Chapman moved to amend Rule 26, by striking out the words "Ten dollars" and inserting fifteen dollars. Mr. Taylor moved to amend by inserting eighteen instead of fifteen, which amendment was accepted.

Mr. Selby moved to further amend by striking out the words "every public school" and insert the words First, Third, Fourth, Fifth and Sixth Wards.

Which was agreed to.

The motion was then laid over until the next meeting.

Mr. Chapman moved that the resolutions referred to the Executive Committee of the old Board, in relation to the additional school districts, added to the city by the extension of its limits, be reported back and referred to the Executive Committee.

Which was agreed to.

On motion the Board adjourned.

Something about Milwaukee.

There is no city on the chain of Lakes, unless it be Cleveland, which in our opinion can at all compare in beauty of location with Milwaukee. The rugged and broken ground upon which her plat was marked out, and which must have looked forbidding and unpromising a few years ago, had been a very important element in her beauty and prosperity. The heavy and expensive grading necessary to level the hills into the valley, gave employment at a most critical time to a large laboring class which could not otherwise have been retained in the city; and now, sitting within a sort of amphitheatre, her streets descend with a fine grade to the river and lake, ensuring always thorough drainage, clean streets and a healthful atmosphere. Her majestic water front cannot be much excelled anywhere. The Bay at Naples is more famous, but we doubt whether it is more beautiful than the Bay of Milwaukee; and by and by when the few bluffs which are left are levelled down to the beach, the view from the Lake, looking in upon the cream colored city, will be worth going to see.

We spent a few days there a week or two ago, and perhaps such a casual notice of some things which struck our attention may not be unreadable. As a Wisconsin city sharing in and contributing to the developing fortunes of our young Commonwealth, we feel a State pride in its growth and welfare. Though most of the advantages which she has, and most of arguments which she brings to bear in her favor as a lake port, are equally possessed by Green Bay, and though we shall assuredly be early and strong in the race of competition for the commerce of Lake Michigan, we are none the less free with our best wishes and admiration for the oldest, the fairest, and the richest of our sister cities.

One needs to spend some time in Chicago, before he can appreciate Milwaukee. He must see the narrow and treacherous entrance to the harbor, which when gained is totally inadequate to even present demands; he must see the low flat streets, whose planked surfaces ooze with all sort of filth and stenches; he must breathe the bad air and drink the bad water, from which there is no escape; and then Milwaukee, with her two harbors, her noble rivers, her immense capacity for docking, her clear water and pleasant atmosphere, and her buoyant, cheerful appearance, will indeed be a relief. It has been and still is our conviction that Milwaukee has just begun to grow, if there is anything to learned from the growth of Chicago, the lesson is a good one in the case of Milwaukee. Chicago is what she is mainly from being a Lake port from the region westward; and Milwaukee in this respect has every advantage because she has a larger, safer, better harbor, accessible as easily and cheaply by the country, and materially nearer the seaboard. These are advantages not to be overlooked; the laws of trade are more irrevocable than those of the Medes and Persians; and when railroad facilities are equal, much of the trade which now clogs the feverish docks of Chicago, will flow off naturally to the quicker, easier, and cheaper channel thro' Milwaukee. She has hardly touched the outskirts of trade with her railroads yet. She has just, within a few days, reached the Mississippi with one, at a point nearly due west; that is an achievement, but it is short of its true destination by at least two-thirds. Her La Crosse road, which will be a magnificent one, has just reached the Wisconsin river. When it taps the Mississippi at La Crosse, and finally touches with its western connection the Great Bend of the Minnesota, or St. Peter's river, she will begin to appreciate its importance. Her Watertown and Madison road, with a Mississippi termination at Dubuque, and a prospective continuation through Northern Iowa, is but just fairly commenced; there is no more promising road for Milwaukee, now laid out, than this one, and yet we believe it does not possess a dock of its own in the city. Her Berlin and Horicon road is just reaching its midway points; and her Air Line road, which is seeking some of the wealth of the Winnebago country, has not a mile in operation. Now we are a country newspaper, located away up here out of the atmosphere of such things, and perhaps our judgment may not be good in regard to them; but we shall venture it nevertheless, and it is that the most important railroad for Milwaukee, now and for all time, is the one to which attention has hitherto been least given: we mean a road which will run Southward and Westward through Beloit to Savanna on the Mississippi, and thence westward through the wheat fields of Iowa to St. Joseph on the Missouri and the plains of Kansas. Every mile of such a road, as it progressed westward, would tap new granaries of wealth which now seeks an outlet through Chicago, and Milwaukee will then begin to reap that trade to which she is of right entitled, but which hitherto has gone to build up and enrich her more forward rival at the southern end of the Lake.

Another matter. The speaker at a railroad meeting, one night while we were there, stated that he had been informed by a lumber manufacturer from the north that lumber could be delivered from the pineries upon Milwaukee docks cheaper by from fifty cents to a dollar per thousand feet than at Chicago. This is an important assertion, and a true one. The more accessible and safer nature of the harbor; its being nearer, by ninety miles, to the most important pineries; and the better facilities for promptly unloading vessels there, easily make the difference stated; and if Milwaukee can successfully compete for that produce trade which we have spoken of as flowing into Chicago, she can in return supply the same country with the immense amounts of lumber which it must have. Besides this, she is every day extending her roads into new territory destitute of lumber, which has been waiting to this time to be supplied. It is our opinion that the lumber business of Milwaukee is on the eve of an expansion utterly beyond all present ideas, if she prepares herself for it. She can, if she chooses, supply Central and Southern Wisconsin, Iowa, Northern Missouri, North Western Illinois, and perhaps Kansas.

The physical features of a place have a considerable influence on the character of its people.—Money may be made where stagnant water and air breed miasma and sickness, and men may flock there for a time to catch the golden opportunity; but few of them will settle upon the place as a home for life, and the consequence will be a grasping selfish policy infecting the whole community. Milwaukee, with her clear air and inviting country, is the opposite of all this. The first ambition of her business men is to secure a permanent and attractive home for themselves and their children; and looking to the place as the one where they shall enjoy as well as make fortunes and reputations, there is fairer dealing and a higher standard of honor among men. You can see this distinctly in Milwaukee. No city in the West has more permanent and reliable business men, nowhere are there handsomer homes, and nowhere, as we can testify, is there a finer social atmosphere or freer hospitality.

But without touching upon many of the points we designed to, this article has already overreached the space allotted for it, and we must risk the happening of another opportunity to finish what we began to say. As we have already remarked, many reasons here set down why Milwaukee shall be a prosperous and populous city, taking to herself that legitimate business which now she fails to get, and reasons which operate equally well in favor of our own City and Bay: and in a friendly and fair contest we hope to give her a swift and successful race for an even share of the commerce of those countries which are developing from year to year. In the meantime, may she have bright skies and good speed, standing there upon Wisconsin shores, one of the fairest daughters of the Great West, looking off to the bright waters for the solving of her riddle—the fruition of her destiny.—*Green Bay Advocate, May 7.*

MINNESOTA LEGISLATURE.—The Legislature has apparently arrived no nearer a solution of the questions involved in the disposition of the grant to-day than a week ago. The Root river Valley and Transit R. R., will probably effect a compromise favorable to both interests.—The representatives from that district deserve the thanks of their constituents for the zeal with which they serve their interests. Messrs. Gere, of Chatfield, and Lowry, of Rochester, are especially active.—*St. Paul Adv.*

☞ Looking out of our office window, recently, we saw at one time the steamer *Appleton Belle* lying off our city, just from Nashville, Tennessee; the little steamer *George Law* headed for Newport. WAGGONER's ferry boat pulling across the river, dredge hard at work in the canal, a dozen or more rafts coming down the river, an Indian crossing the river in a canoe, &c. &c. Who shall say that Portage is not a great maritime city?—*Portage City Record.*

AN "INTERESTING" INCIDENT.—Just as the steamer Northern Belle arrived at our levee yesterday, an addition was made to the visible number of passengers, by the birth of a noble boy in the ladies' cabin. He arrived in town healthy, and it is said that when the boat touched the soil of Minnesota he crowed audibly! Mother and child are as well as could be expected.—*St. Paul Times, 7th.*

MORTALITY AMONG HORSES.—We hear that an unusual mortality has prevailed among horses in this vicinity for a few weeks past. Yesterday Mr. Wheeler lost his fine stallion Hambletonian, and several other valuable horses have been among those which have died.—*Janesville Gazette, 4th inst.*

A WARNING.—The Alton (Ill.) Courier warns the public against eating, as greens, the tops of the pie plant or rhubarb. Within the last few days a number of instances have occurred in which their use has severely poisoned those who ate of them. The symptoms are violent purging and vomiting.

THE MARKETS, &c.

OFFICE OF THE DAILY SENTINEL,
MILWAUKEE, May 15, 1857.

Received by Mil. & Miss. R. R.—499 bbls flour, 9,260 bus wheat, 500 do potatoes, 39 hides, 2 cars stone.

By Mil. & La Crosse R. R.—1684 bus wheat, 96 bbls flour, 51 sacks do, 65 bus barley, 40 bus potatoes, 2 bbls eggs, 1795 lbs hides, 12,877 lbs sundries.

By Watertown Division.—164 bus wheat, 147 bbls flour, 45 sacks do.

By Mil. & Horicon R. R.—3,192 bus wheat, 142 bbls flour, 60 bus potatoes, 1,690 lbs hides, 580 lbs sundries.

Flour—we heard of no sales. The stock is being rapidly cleared out, about 65,000 bbls having been shipped since the opening of navigation.

Prices of wheat, with good receipts, keep up remarkably. Great doubts are entertained, by many of the shrewdest operators, of the safety of working at present rates here, and we notice that the last sales made on Wednesday night at Chicago, were at 1,18 on board for spring. Taking the difference in quality of wheat into consideration, this is equal to 1,15a1,17 here. Buyers here were found yesterday, to take most of the receipts at the platforms, at 1,20a1,25 for spring, and winter at 1,30a1,43, according to quality.

Barley—selling in small lots at 1,50a1,60 for common to prime.

Rye—75a80, and scarce. Rye flour 3,50.

Corn—wanted for local use at 65a70.

Oats—quick at 62½a65.

Potatoes—rather dull yesterday, with large temporary supply—sales at 1,00a1,05.

Pork—mess firm at $24.

Butter—fresh roll 28a30—firkin 22a25.

Hides—7a8c for green, 15a17 for dry.

Hay—demand active at high rates. Good timothy has sold as high as $35—we quote marsh hay at $20a22—timothy $30a35.

Freights—we note charters to Oswego at 13½c—to Buffalo at about 8c—to Montreal at 12c.

The fine rain of Wednesday night, succeeded by warm weather, must rejoice the hearts of the farmers.

Chicago Market.

The *Tribune* of yesterday morning quotes freights to Oswego at 7c, and to Buffalo 3½a4½ on wheat.

Wheat on the 13th sold during the day at 1,16a1,23—closing at night with sales at 1,18 on board.

Buffalo Market.

The *Republic* of the 12th quotes as follows:

FLOUR—market steady and active—sales 800 bbls at 6,50a6,75 for choice Iowa and Indiana, $7 for extra Ohio, and 7,37½ for double extra family do.

GRAIN—Wheat market firm, with a good demand; sales 5,000 bu Milwaukee club, in two parcels, at 1,40, and 1,600 bu Illinois spring at 1,38.

This was before the receipt of stock by lake. We look with interest to see the quotations two or three days after the breaking up of the ice embargo.

SHIPMENTS FROM MILWAUKEE AND CHICAGO.—The Milwaukee *Sentinel* institutes a comparison between the shipments from that port and this for the season, trying to show a balance in their favor.—*Chicago Tribune.*

The *Tribune's* corns are over tender. We took its own figures as to shipments of flour and wheat from Chicago, in comparing them with the shipments from this port, and the footings showed as follows:

	Bushels.
Milwaukee, bu wheat	625,497
Chicago, do	565,606
In favor of Milwaukee	59,891

That's all; except that the *Tribune* claims that the amount of wheat in store at Chicago is largely in excess of the amount here—which claim is pure gammon.

PRODUCE IN STORE AT CHICAGO.—The Chicago *Tribune* of Thursday says that the amount of produce in store at that port on Saturday, 9th, was as follows:

Flour, bbls	22,520	Wheat, spring, bus	539,707
Corn, bus	161,752	" red "	21,559
Oats, "	75,912	" white "	10,017

The amount must have been largely diminished since that time, as the receipts from the interior are comparatively small.

PORK AT CINCINNATI.—A letter from Cincinnati to a Detroit house, dated the 9th, states that pork at the former place was firm at $22,50, with only 4,000 bbls in market.

Marine Intelligence.

THE LAUNCH.—The fine schooner *W. J. Whaling* was launched from Jones' ship yard on Wednesday afternoon. She registers 375 tons; keel 136 feet, 26 feet beam, 11 feet hold. She is a finely built, staunch, vessel, of large carrying capacity, intended for the grain trade, and owned by Messrs. Dill & Whaling.

THE NORTHERN SHIP CANAL.—The Chatham *Planet* of the 6th states that the bill for the chartering of the projected ship canal from the St. Clair to the Georgian bay is in a fair way to pass both houses of the Canadian parliament. It says: "It has already through its second reading, and it is stated by those well acquainted with members of Parliament, that the third reading will be carried without a doubt." We see that the Ship Canal committee of Chatham are collecting moneys subscribed to the proposed canal, to defray the expense of survey, which looks like going ahead. Messrs. Parkinson and Smith, the engineers are preparing a report of the survey.

FIRST OF THE SEASON.—The Col. A. B. Williams, from Toledo, loaded with coals, arrived here yesterday. She is the first vessel from the lower lakes which has entered Racine harbor this season.—*Racine Jour., 13th.*

☞ The Schooner *Isabella* is loading with wheat at Messrs. Norton, Hurlbut & Co's warehouse.—*Ibid.*

A "Local Item."

We publish to-day, in another place, a very complimentary notice of our city, for which we have to thank our friend ROBINSON, of the Green Bay *Advocate.* Some of these times we mean to visit Green Bay again, and see how that good old town thrives under the impulse which the opening of the Improvement has given, and say good words for it—see if we dont!

There are matters in Mr. Robinson's letter which our citizens ought to ponder well—what he says about the Mil. & Beloit R. R. for instance.

THE BAYOU TO BE FILLED.—The Seventh Ward commissioners, in pursuance of a law authorizing it, declare the Bayou, situated north of Oneida street, and between River street, on the west, and blocks fifty-one (51), fifty-two (52), fifty-three (53), and fifty-four (54), on the east, extending north to Division street, to be a public nuisance, and have ordered said nuisance abated, by filling the same with earth, within forty days from the 14th.

They give notice to the owners or occupants of lots in said blocks to fill them and the streets adjoining, within the limited time, or the work will be done at their expense.

This is an extensive work. When completed it will give a handsome, broad street for four blocks in length, leading from the Oneida to the Chestnut street bridge, and will add materially to the health of that part of the city, as well as to its appearance.

SLITER & WOOD'S MINSTRELS AT ALBANY HALL LAST NIGHT.—Notwithstanding the miserable weather, and the almost impassable state of the streets, Albany Hall was filled last night at the Concert of this talented troupe of Ethiopian wits. There was nothing improper or vulgar about their performances, on the contrary everything was conducted with taste and propriety.—They have an entirely new programme for this evening which, if possible, is more interesting than last evening's. If you want to spend a couple of hours merrily, and laugh "dull care away," go and hear them, and if you don't laugh, why then *there is no laugh to you.*

NEW FIRM.—In our leaded columns to-day will be found the announcement of the purchase of the old established Drug Establishment of S. JOHNSON, by the new firm of HARRINGTON & Co. Mr. HARRINGTON is a new comer to our city, bringing a high reputation as a business man. His partner is Mr. JOHN DADD, whose face and courteous greetings are familiar for years to the customers of the store. He is a capital chemist, and a steady-going, industrious man. Such men deserve, and will win success. We commend the new firm to public favor.

INDIAN SKILL.—Yesterday we noticed a crowd gathering on Wisconsin Street, and straightforth made for the scene of excitement, when we found that it was all caused by a young Indian lad about ten or twelve years old, who was exhibiting his skill in archery, by shooting across the sidewalk at pennies, when any body was liberal enough to put up one, and he was sure to hit it every time, though he stood some distance out in the street. The admiring spectators thronged round thick and fast, but the attention of a policeman was soon attracted to the spot, and he very unceremoniously sent young Mr. "Ilingin" about his business.

WISCONSIN NATURAL HISTORY SOCIETY.—A Society has been organized in this city for the purpose of making a collection of articles illustrative of the natural history of this State, and particularly of obtaining relics of the Indian tribes, and articles used by them.—They hope to interest the public in their enterprise, and will be glad to receive donations of articles, or to be informed as to where they may may be obtained. P. ENGELMAN, is the Corresponding Secretary, to whom communications may be addressed.

CONCERT TO-NIGHT!—Madame JACOBI gives her promised Concert *this* (Friday) evening. She offers an excellent programme, Dramatic and Musical, and will be assisted by a number of skilful performers. MADAME JACOBI is an old resident of our city, an accomplished artist, and maintains a large family by her professional labors. We trust that her appeal to our ever music-loving public to-night will meet with a substantial response.

CITY DIRECTORY.—Our friends Erving & Burdick, of Milwaukee, have now in press, at the office of the *Sentinel*, a new Directory for that city. A few pages will yet be given, at a low rate, to any who desire to extend a knowledge of their business, and professional and business men in every part of the country will find it a valuable medium through which to make themselves generally known. They will issue about 1200 copies, some 300 of which will be distributed among the best hotels throughout the State. Hotel-keepers, by all means, should have their cards inserted in this Directory. The work will be furnished—with a beautiful map of Milwaukee, worth $1,00—for $2,00; without the map for $1,75.—*Fon Lake Journal.*

DRAWING INSTRUMENTS.—Mr. Williams, at the office of the Eagle Foundry, on West Water street, has just received a new supply of those fine Brass and German Silver Drawing Instruments, which he is selling very cheap. Engineers and machinists would do well to make a note of this.

SELLING LIQUORS WITHOUT LICENSE.—At the last meeting of the Common Council, the Marshal was directed to obtain and report to the Board and the City Attorney, a list of the names and places of persons who are selling liquors without license.

☞ We are requested to announce that Rev. HENRY M. THOMPSON, City Missionary, will (D. C.,) hold services next Sunday in the building situated on the corner of Jefferson and Michigan Streets, at 10½ o'clock A. M., and 3½ o'clock P. M.

MILITARY.—Companies A and B, of the Milwaukee Light Guard, are notified to meet at the Armory, at 8 o'clock *to-night*, for Battalion Drill and Manual Exercise. A full attendance of Members is looked for.

NEW BUILDINGS ON WEST WATER STREET.—The *Free Democrat* learns that eight first class stores are to be erected on West Water St., near Clybourn, in the vicinity of the new bridge.

A BRIGHT IDEA.—There has been an exhibition in this city for two or three weeks past, consisting of two stuffed calf skins awkwardly sewed together. Admission "only ten cents."

For the Sentinel.

The Peak Family have just returned from Fond Du Lac, and give a glowing account of Amory Hall in that city. Over fifteen hundred tickets were sold at their first entertainment, and the dedication passed off brilliantly. They write as follows:

AMORY HALL, FOND DU LAC.

This magnificent, well-arranged, and nobly-built edifice is, without doubt, to be ranked among one of the best in the United States.

Its location is central and pleasant, being directly opposite the well conducted, model Lewis House.

We learn there is to be a grand assembly there on the 25th instant, which cannot fail to be a "tip top" affair—particularly if the Great Western Band, with their soul-stirring strains, are in attendance. Those fond of "tripping the light fantastic toe," must not fail to join the mazy dance, and we can ensure them a solid enjoyment.

We commend this Hall to the travelling public, and those visiting Wisconsin must not fail to go to the Lewis House, where the "stuff of life" is bountifully supplied, and take a view of Amory Hall.

RUSSELL'S PATENT MASTIC ROOFING.
Patented February 12th, 1856.

THE Mastic Roofing has been thoroughly tested for the last four years, and found in every respect to be all and even more than was represented, excelling by far all others now in use, Tin and Slate not excepted, in its adaptation to steep and flat Roofs, Rail Road Cars, Foundries, &c.

We are well aware, that in offering a new Invention to the public it must meet with some opposition but it should stand or fall upon its own merits. Our preparation is entirely different from any before known. We use a heavy Canvas, and saturate it with a water-proof compound before laying on the roof. On this we put a heavy cement which also renders it

FIRE-PROOF.

By this preparation it makes a much heavier and more desirable Roof than any other Cement Roofing now known.

For References see Circulars; and the Roofing can be seen on Alderman Plankington's Candle Factory, and on the Phoenix Building.

The above Invention was made by C. C. Hoff, of Albany N. Y. The Right and Interest to said Invention was purchased by E. P. Russell of Manlius, N. Y. and Letters Patent were obtained by him February 12th, 1856, and was awarded the first Premium and Diploma at the Albany Co. Fair in the Fall of '56. We are authorized Agents for the sale of Town and County Rights in the West.—Those who may wish to engage in a highly profitable business with a small capital are earnestly desired to call. Office in Kneelands Block, No. 8, up stairs.

TO CAPITALISTS.

REAL ESTATE has already commenced to feel the effect of the advancing season and of improved times, and an activity has been manifested within the last few days which indicates a vastly improved demand for the future.

Now is the time for investment, and we are offering property at lower prices than it can ever be obtained at.

Some land which we have, just beyond the city limits, presents a magnificent chance for speculation. Gentlemen desiring to purchase are invited to call at our office. We can show lots in every part of our city.

City Auction Room.
ALL Goods sent to my Auction Room for sale, I will advance one-third cash on the amount. I have now employed an experienced and thorough business gentleman, Mr. Ayres, who in my absence will attend to all matters connected with my Auction business. My object is to make the City Auction Room a thorough business house. I am sorry that I have not a better Room for my business, but I hope in course of time to induce my old and worthy friend, Mr. Eldred, to erect, or let me do it, a Block of stores on the corner of Wisconsin and East Water streets, which will go ahead of any we have now in our city, and I will of course try and keep the old corner. I will do my best where I now am, and will keep all Goods insured, it being the best stand for Auction business in this city. may2 CALEB WALL.

CITY LAND OFFICE.
Great and Extensive Sale of Lots in
Portage City, Columbia Co., Wis.
TWO HUNDRED LOTS.

THIS CITY OF PORTAGE is a very desirable place, and holds out great inducements to all who are now emigrating to Wisconsin. It contains a population of from ten to twelve thousand. It is handsomely built up, and has all the conveniences and comforts that any other city in the West has. There are already two Banking Houses and several Exchange Offices there. The city, in a few months, will have its Gas and Water Works. It contains as fine brick store houses and dwelling houses as you will find in any Western city, and its location and situation for business one can see at a glance on the maps. It has all the advantages of the navigation of the Wisconsin and the Canal. It will, in a short time, have from three to four Railroads. The La Crosse Railroad is now completed to Portage. In fact, I know of no city out of Milwaukee, which holds out such inducements and its prospects so flattering as Portage City; and I would say to all who have money to invest, and who are seeking a home, to go and visit Portage City and examine for yourselves. The La Crosse cars run there twice every day. The lots which I am going to sell on June 12th, 13th and 15th, are choice lots and business property. Maps of the said City are now at the City Land Office, and any one who desires any other information as regards the said sale of Lots in Portage City, if they will call on me I will give them all the information they want. They list of lots I will publish in a few days. They will be sold on very easy terms.

THREE P. M. REPORT.

News from Peru—Arrival of Wheat—Reward Offered.

New York, May 14.

The news from Peru by the Geo. Law is important. President Castille had left the Capital at the head of 2,000 troops, for the south; but after he had landed, his vessel was captured by Vivanco, who, it was expected, would immediately make a demonstration against Lima and Callao. The cities, it was believed, were in great danger of falling in the hands of the Revolutionists.

The boat Whitney arrived yesterday with 2,200 bushels of wheat from Canada, the first from that quarter this season. This cargo came by R. R. to Cape Vincent, and was then shipped on the above boat.

The proprietors of the Times, offer $5,000 reward for information which will lead to the detection and conviction of the Burdell murderer, reserving the right withdraw the offer whenever the authorities of the city or State, shall take proper action calculated to accomplish the same result.

Judge Beebe, it appears, has declined the superintendency of the police, and Ex-Recorder Tallmadge is appointed and sworn in.

Frank Anderson, an officer of Walker's army, who came passenger on the Geo. Law, says that when he left Aspinwall on the 3d inst., Walker was in Rivas with 800 men. A day or two previous to Anderson's leaving the Isthmus, a letter was received from a private source in San Francisco, but not to have his expectations raised too high and he would thus find something to benefit him and his cause.

The Colonel also says that he had from another source that the proposed benefit was in the shape of a small sailing vessel, fitted up by private enterprise, having upwards of 150 men with a good supply of provisions, arms, &c., on board, which Anderson thinks must have arrived ere this time and taken charge of by Walker or his representatives. Anderson thinks that Walker is still in the ascendant and gives no credence to the report that he was taken refuge on board a man-of-war.

On the other side one of the officers of the Geo. Law says, that on leaving Aspinwall, the report was current then, that Walker was completely hemmed in on all sides by the enemy at Rivas, and that the allies were about bringing guns to bear on him, in which case he thinks there will be little hopes for his men, of which he has but about three hundred, all told.

Scarcity of Feed.

Louisville, May 14.

Since late rains, the grain crops within a circle extending 100 miles from this point, look quite promising. Same accounts from Louisiana and Virginia. Knoxville papers say provender is so scarce that the planters are obliged to cut down trees for their cattle to browse upon. There is the greatest want among the poorer classes. The Circuit Court at Jacksonborough was obliged to adjourn without sitting. Feed could not be obtained for the horses of the Judge and lawyers.

ARCHITECTS AND BUILDERS
ATTENTION!
W. E. CHILDS & CO.,
New Roofing Material!
PATENT FIRE AND WATER PROOF
ELASTIC CEMENT ROOFING!

THE UNDERSIGNED are prepared to contract and put on in this city and throughout the State of Wisconsin, W. E. Childs & Co.'s Elastic Fire and Water Proof Cement Roofing, it being the only article yet invented that will successfully resist the action of the atmosphere in every climate. It is perfectly *Fire and Water Proof*—is a non conductor of electricity, and in point of durability it is equal, if not superior to any Metallic Roofing. It is perfectly *elastic and flexible.* It contracts and expands with the change of the atmosphere, and will never evaporate, crack, melt or run; and there can be no question of its *durability.*

This Roofing is Practically Imperishable.

It will perfectly resist any ordinary external exposure to fire, as is abundantly testified, and we will warrant it water proof.

We will engage to put it on over ordinary good sheathing, old shingles, tar and gravel, tin, zinc, copper, or iron roofs—it making no difference how steep or flat they may be—for six dollars per one hundred square feet. It will also be found to be the best thing ever invented to cover the decks of vessels, Rail Road cars, depots and bridges, and to cover or mend old leaky tin, tar and gravel roofs, or to use around chimneys, scuttles, dormer windows and gutters, where the tin or other metals are rusted through.

This cement can be put on tin at as long as stone, and will form a perfect adhesion to the object to which it is applied, such as wood, metal, brick or stone. Tin and other metal roofs can be painted over—warranted not to leak—at three dollars per ten feet square, which is cheaper and far more durable than paint. As this roof is perfect (without a joint in it) it presents no chance for fire to communicate, and any light substance will burn out without igniting. It is now being generally introduced in New York, Boston, Philadelphia and other large Eastern and Southern cities, and has met with general adoption throughout the Western cities, and having superceded all others at Cincinnati, where it was first used, and where there are many roofs that were put on three years ago, all of which are now perfect.

We invite all who are building, and also those who wish their roofs repaired, to call at our office, No 249 Main Street, 1st door North of Wisconsin, and to examine samples. We refer to the following gentlemen:

CINCINNATI, May 5, 1857.
MESSRS. J. CARLISLE & Co., Milwaukee, Wis.:—
In justice to yourselves and the merits of your "W. E. Childs & Co's Patent Elastic Fire and Water Proof Cement Roof," we take great pleasure in making the following statement:—We have been engaged practically, all our lives, in building, and are well acquainted with all the Patent Roofs generally, and erroneously classed yours with the current humbugs of the day. We are now satisfied, from a scrutinizing investigation, that your roof is the very best of which we have any knowledge, (not excepting metal roofs of any kind,) because of its extreme lightness in weight and elasticity of texture. We are recommending it to all for whom we build. From a specimen of two years standing which we have seen, we are satisfied that it is practically imperishable, and as far as weather influences are concerned, will out last the most substantial building. Its fire and water proof qualities are unquestionable. Yours Respectfully,
J. & D. DECAMP, Builders.

CINCINNATI, 5th Month, 5th Day, 1857.
MESSRS. CARLISLE & Co.
You having requested my opinion about W. E. Childs & Co's Patent Elastic Cement Roofing, in answer to your request, I can state I have used the Cement in several buildings of my own; which have stood the test of the hottest and most intense cold weather of last year, without being effected, I give it as my decided opinion, that it is the best and most perfect roof now in use. Among its desirable qualities is that of being so completely water-tight around the fire-wall, hatches, chimneys, &c., and close from danger of fire by sparks or outer flames.
EZRA BAILY.

OFFICE OF THE CIN. HAMILTON & DAYTON R. R. Co.,
Cincinnati, May 1st, 1857.
MESSRS. J. CARLISLE & Co.—
Dear Sirs—My opinion has frequently been asked of W. E. Childs & Co's Patent Cement Roofing. I have no interest in the article, directly or indirectly, but feel a desire to see a good thing generally introduced.
During the past year I have used it on my Main street building, and find it a very great improvement on all cements heretofore in use in our city. Many of our first class buildings have recently been covered with it, and I have heard many of the owners speak in high praise of the article. We are at this time covering some of our cars with this cement.
Yours truly,
S. S. L'HOMMEDIEU,
President of Cin. & Ham. Dayton R. R. Co.

CINCINNATI, May 4th, 1857.
This is to certify that we have used W. E. Childs & Co's Patent and Fire Proof Cement, on the Passenger and Freight Cars of the Cin. Hamilton & Dayton R. R., and find it to answer the purpose better than any kind of roofing we have ever tried. I would recommend it to all Railroad companies as the most desirable and safe roofing that can be applied to the roofs of Passenger or Freight cars.
DANIEL McLAREN,
Sup't. of Motive Power Cin. Ham. & Dayton R. R. Co.

CINCINNATI, May 1st, 1857.
Having examined the Cement Roofing patented by W. E. Childs & Co., and now being put on by them, I feel confident in stating that it is superior to any roof ever before tried in this city. It presents a neat clean surface, is very elastic, and seems to have all the qualities the inventor claims for it.
JAMES W. McLAUGHLIN, Architect.

OFFICE OF BUCKEYE STATE IN. CO.,
Cincinnati, Dec. 10, '56.
To all whom it may concern:
This is to certify that I have examined specimens and roofs of W. E. Childs & Co's "Elastic Fire and Water Proof Cement Roofing," and believe it to be eminently superior to any other kind of Roofing in use. I was an eye-witness of a severe trial of one of these roofs from a large volume of flame from an adjoining building, which struck directly upon the roof and cornice for nearly half an hour. It stood the trial beyond all expectation and saved the building. Yours,
T. M. HASKELL,
President Buckeye State Insurance Co.

CINCINNATI AGENCY, ROYAL IN. Co.,
February 6, 1857.
I have examined W. E. Childs & Co's Elastic Fire and Water Proof Cement Roofing, and as far as I can judge, consider it a great invention, and am willing to insure buildings thus protected upon the same terms as I insure those covered by metal.
JOHN S. LAW,
Agent Royal Ins. Co., London and Liverpool.
And many other testimonials that can be seen by calling on us.

The Cement will be furnished in large or small quantities to those wishing it, residing out of the city, with printed directions for applying it.

Orders sent to us through the Post Office will be promptly attended to. Application may be made to us for the purchase of rights in Counties or towns throughout this State, in which to use the above roofing.

Great Sale of 150 Lots in
PLANKINTON'S ADDITION.

THE SUBSCRIBER will offer for sale, at Public Auction, on the ground, on May 20th, 1857, one hundred and fifty of these valuable lots, situated in the most healthy and desirable part of the Ninth Ward, lying high and dry, and commanding a fine view of the whole city and harbor. This property is rapidly increasing in value, owing to the number of improvements now in progress or recently completed in this Ward, such as the handsome German Cathedral on Cherry Street, &c., &c. As these lots are very nearly on the grade established by the city, the expense of the grading will be very light, although they are sufficiently elevated to render the drainage perfect. The streets are now being run out and will probably be graded and the sidewalks built in the course of the coming summer. Maps of the addition will be furnished on the day of sale, describing the lots for sale, &c. The terms of sale are very easy, being one-fourth cash and the balance in three equal annual payments, with interest at the rate of seven per cent, per annum, ten per cent of the purchase money to be paid on day of sale. This is the last chance that will be given for persons to obtain any of these valuable lots at a low figure, as the balance will be withdrawn from market, immediately after this sale. The sale will commence precisely at 10 o'clock A. M., unless postponed on account of the weather. Omnibusses will run from the corner of East Water and Wisconsin Streets, on the day of sale, to convey persons to and from the ground, free of charge.

NO BLAZE! NO BURNT STEAKS!
No Smoky Kitchen!
ROBINSONS DOWNWARD DRAFT
GRID IRON.

"What though with lavish kindness
The Sirloin steaks are thrown,
Some Biddy's to her blindness
Will cook them hard as stone."

The author of the above lines should purchase one of Robinson's Grid Irons, and the poor Bridget would have something on which she could cook a steak as it should be.

[From the Boston Advertiser.]

A good beefsteak, well cooked, so seldom appears in the line of most mundy fare, that we think a very great advance has been made in civilization by the introduction of a new gridiron, which enables even a stupid attendant to cook a steak perfectly well. So great is the advance, that we gladly call to it the attention of our readers.

This new gridiron accomplishes three desiderata:

1. It saves all the gravy of the meat, none dropping into the fire.
2. It cooks the steak through, without burning the outside.
3. It prevents the passage of any smoke into the kitchen or house.

The grand result, as we are made certain by the judgments of many experts, as well as our own more fallible taste, is, that with less trouble, meat is broiled better than ever before.

MEDICAL.

R. R. R.

THE MEDICAL TRINITY.

EACH of Radway's Three Remedies possess special curative powers over certain diseases; and when either the Ready Relief, Renovating Resolvent, or the Regulators, are used for the certain class of diseases they are specially designed for, the system undergoes a rapid transformation from its diseased condition to a healthy and happy state of existence.

RADWAY'S READY RELIEF.

This remedy is to be used externally, or taken internally, for all pains, aches and infirmities. In a few minutes it stops the most torturing pains, subdues all inflammations and cures the worst cases of *Rheumatism, Lumbago, Gout, Paralysis, Neuralgia, Tooth-ache, Burns, Sprains, Strains, &c.* It restores the *lame, infirm and crippled* to soundness and vigor. It is likewise a certain cure and preventive for *Fever and Ague, Scarlet Fever, Smallpox, Croup Hoarseness, Colds and Influenza.* Whenever you feel any unpleasant or painful symptoms, take a dose of Radway's Ready Relief, or apply it to the parts where the pain is located; in a short time you will enjoy ease and comfort.

Bear in mind, there is no pain so severe but that Radway's Ready Relief will stop, and no system so crippled with infirmities but that the R. R. R. Remedies will restore to sound and vigorous health.

RADWAY'S REGULATORS.

The discovery of these wonderful pills establishes a new era in purgatives, and a new principle in the science of medicine. In taking these pills no griping pains or sickness at stomach is experienced; they operate naturally, leaving the bowels, liver and other organs in a natural condition.

They insure those who take them a good appetite and a healthy digestion.

Each pill that is taken gives new life to the blood; they purify it, take from it all impure deposits and equalize its circulation.

One or two doses of Radway's Regulators will entirely remove all distressing symptoms of Dyspepsia, Jaundice, Nervousness, Indigestion, Costiveness, Liver Complaint, Billiousness, Melancholy, and will cure all organic diseases, either in man or woman. Ladies troubled with irregularities or weakening discharges, may rely upon a prompt cure and regular periods if Radway's Regulators are taken.

PICTURE OF HEALTH AND BEAUTY.

A few doses of Radway's Regulators will insure a clear, fair, pure and healthy skin and a rosy complexion. They give to those troubled with weak dull, yellow eyes, a clear and brilliant appearance. Radway's pills give a natural beauty to the face, eyes and head; and the use of the Ready Relief as a wash for the teeth and an aromatic for the breath, will change the most disgusting foul breath to sweetness, and the blackest teeth to Parian whiteness.

One to ten of Radway's Regulators is a dose; they never do injury, but always do good.

CONGESTIVE DISEASES, APOPLEXY, TERMINATION OF BLOOD TO THE HEAD.

Persons of full blooded plethoric habits are more subject to congestive diseases, headaches, rush of blood to the head, than those of a lean habit; bleeding in these cases is highly detrimental, nor does this practice lessen the danger; the difficulty is not caused by too much blood, but by its disturbed circulation, and the irregular action of the *heart.* Now a dose of Radway's Regulators will correct all these difficulties—they will *correct* the action of the heart, liver, and all other organs to a natural and regular action, and will immediately *equalize* the circulation of the blood. Mere purging in these cases will only aggravate the disease.

Radway's Regulators not only *regulate* the bowels, by

[illegible] Resolvent will soon remove the difficulty.

☞ Sarah Hammond, of 198 East Thirty-Second st., had a bad cough for two years, she coughed up sometimes a half a pint of blood during the night. She was cured in seven days by the Relief and Resolvent.

☞ A sore leg of 21 years cured in three weeks, by Radway's Relief. Mr. T. H. Kilgo, a merchant of high standing in Dahlonega, Ga., says:—"That a gentleman who, for 21 years, had been afflicted with a sore leg, that resisted every kind of treatment, was effectually cured in three weeks by Radway's Ready Relief, Resolvent and Regulators."

GENERAL COMPLAINTS.

If you catch a sudden cold, get a sore throat, or become afflicted with influenza, a dose of Radway's Regulators, and an application of the Ready Relief, will free you from all pain and uneasiness. In a few minutes after the Relief is applied no soreness will trouble you. If afflicted with headache, either nervous or from foul stomach, Radway's Ready Relief, and a dose of Regulators, will remove all pain from the head, and restore health to the nervous and afflicted.

Radway's Ready Relief and Regulators always cures *Dyspepsia* in its most distressing forms, and nervousness with all its horrors.

☞ WHOOPING COUGH.—Thousands of cases of Whooping Cough have been cured in a few days by the Resolvent and Relief, and if the Whooping Cough is prevalent in the neighborhood, those who take half a teaspoonful of Ready Relief in a little water, once or twice per day, will never catch it. Radway's Relief destroys the infection of the Whooping Cough."

☞ TOBACCO CHEWERS.—Those who have become reduced by the effect of tobacco, or the indulgence in spirituous liquors, who feel the horrors of incapacity, weakness, sterility, and the *infirmities* which a fast and intemperate, luxurious and lustful course of life inflicts upon its victims, will find relief from these horrors, and sure restoration to health, strength and vigor, by the use of Radway's Relief, Regulators and Resolvent.

BOERHAVE'S
HOLLAND BITTERS

THE CELEBRATED HOLLAND REMEDY FOR
DYSPEPSIA,
DISEASE OF THE KIDNEYS,
LIVER COMPLAINT,
WEAKNESS OF ANY KIND
FEVER AND AGUE,

And the various affections consequent upon a disordered

STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, it has in many instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE.—Whoever expects to find in this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a grateful aromatic cordial, possessed of singular remedial properties.

CAUTION!

The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given BOERHAVE'S HOLLAND BITTERS a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.
